

The joint neighbourhood plan for Ditchling, Streat and Westmeston will guide general planning policies for the area.

It will include:

- an overall vision and objectives for the area
- what, when, where and how the area will change to achieve the vision and objectives
- what infrastructure will be needed
- design principles and characteristics of the area that should be preserved

The plan has to fit into other local plans such as those of Lewes District Council and the South Downs National Park Authority.
